

Journal of Geomatics

(A publication of the Indian Society of Geomatics)

Vol. 1, No. 2

October 2007

Contents	iii
1. Updation and metrology of cadastre using high-resolution satellite data <i>P. Jayaprasad, A. Nadeem, R. Ghosh, S.K. Pathan, Ajai S. Kaliappa, R. Vidhya and M. Shanmugam</i>	71
2. Framework of semantic interoperability using geospatial ontologies <i>Sumit Sen, Dolphy Fernandes, G. Arunachalam, Sri Ram Gupta and N.L. Sarda</i>	77
3. Morphometric and structural analysis in Zagros Mountains, Southwest Iran: an application of geo-information technology <i>Saied Pirasteh, Syed Ahmad Ali and Saiedeh Hussaini</i>	87
4. Flood disaster studies and damage mitigation - an application of remote sensing and spatial information systems <i>K.H.V. Durga Rao, Parama Bhattacharya, and Madhubanti Bhattacharya</i>	93
5. WebGIS – an application of agriculture information system at district level <i>B.Veeranna, I.V. Muralikrishna and E.G. Rajan</i>	101
6. Prioritization of timber species richness hotspots for optimal harvesting and conservation planning - a spatial statistics approach <i>Bijoy Krishna Handique and Gitasree Das.</i>	107
